

Neha Bajpayee

Technical Program Manager — Product & Platform Delivery

+91-9916421210 | bajpayee.neha@gmail.com | <https://www.linkedin.com/in/neha-bajpayee-1a976a5a/>

Bangalore • Immediate / short notice

PROFESSIONAL SUMMARY

Technical Program / Delivery Manager with a B.Tech in Computer Science and 17+ years across the full delivery lifecycle — from a hands-on technical start (application implementation and scripting) through QA leadership into end-to-end Agile program and delivery management. Proven in greenfield, build-from-scratch initiatives (concept to MVP), effective project delivery, and solution-level architecture and RFP/bid involvement on enterprise engagements. Aligns engineering, product, design, and QA teams to accelerate time-to-market, with modern Agile/SAFe delivery, data-driven governance, and emerging-tech adoption (LLM-assisted workflows).

CORE SKILLS

Delivery & Engagement: End-to-End Agile Delivery (Initiation to Deployment), Greenfield / Build-from-Scratch Delivery, Effective Project Delivery, Solution Architecture (solution-level design & coordination), RFP / Bid Involvement, SDLC Governance

Program & Delivery Leadership: Program Management, Product Delivery, Roadmap Execution, Release Management, MVP Strategy, Platform Incubation, Matrix Collaboration, Stakeholder Alignment, Resource & Capacity Planning

Agile & Governance: SAFe, Scrum, Sprint Planning, Engineering Velocity, Executive Scorecards, KPI Dashboards, Predictive Risk Analysis, Data-Driven Governance

AI & Data: LLM-Assisted Delivery (ChatGPT, Microsoft Copilot), Prompt Engineering, Process Automation (n8n), AI Infrastructure (Pinecone vector DB, RAG), Predictive Data Analytics (Julius AI), Power BI

Tools: JIRA, Confluence, Azure DevOps, MS Project, Advanced Excel, PowerPoint, Slack, Microsoft Teams

Leadership: Cross-Functional Team Leadership, Mentoring, Negotiation, Stakeholder Communication, Accountability

EDUCATION

Accelerated General Management Programme (AGMP) — IIM Ahmedabad

2019 – 2020

B.Tech, Computer Science — UPTU, Lucknow

2003 – 2007

WORK EXPERIENCE

Program Manager & Delivery Leader | [StatusNeo](#)

May 2024 – May 2026

- **Cross-Functional Scale:** Orchestrated delivery across 4 product lines and 30+ distributed engineering, product, and design teams, lifting launch readiness from 70% to 90%.
- **Velocity Optimization:** Resolved cross-team engineering dependencies and introduced predictive release-risk modelling, cutting production delays by roughly a quarter.
- **Executive Influence:** Built centralized KPI dashboards and executive scorecards for complex portfolios, materially reducing critical leadership escalations.
- **AI & Innovation:** Led adoption of LLM tools (ChatGPT/Copilot) to automate lifecycle documentation and synthesize historical sprint data into early-warning risk indicators.
- **Team Sustainability:** Restructured resource allocation and bench-capacity planning to reduce delivery-attrition risk across teams.

Founder | [NEWTRUN Labs](#)

Sep 2022 – Dec 2023

- **Product Incubation:** Took two proprietary technology platforms from concept to MVP within 6 months, owning product strategy, customer discovery, and engineering milestones.

- **Agile Delivery:** Ran cross-functional development sprints and tightened roadmap execution to compress engineering rework.

Product Owner / Project Manager | [Mirra Healthcare](#)

Apr 2021 – Sep 2022

- **Product Ownership:** Moved from project management into product ownership—driving backlog prioritization, release planning, and roadmap execution—improving delivery efficiency by ~45%.
- **Team Velocity:** Coordinated 2 Agile engineering teams (20+ members), raising sprint predictability and reducing spillover work.
- **Launch Quality:** Synchronized code dependencies and cross-team deployments, reducing post-release defects and product rework.

Project Manager | [BluOne India](#)

Aug 2020 – Mar 2021

- Led planning and execution of four concurrent enterprise programs, improving launch-milestone adherence through metrics-driven governance. (Department acquired by Mirra Healthcare, Mar 2021.)

Software Technologist II (Scrum Master / PM) | [Philips](#)

Apr 2017 – May 2020

- Facilitated high-velocity Agile execution for global initiatives, increasing sprint completion rates through proactive bottleneck removal across multiple international time zones.

Software QA Lead | [Swiggy](#)

Aug 2015 – Apr 2017

- Built and led the enterprise QA function as a core engineering team member, scaling testing infrastructure to safeguard quality for mission-critical, high-traffic applications.

Associate QA Lead / Senior QA | [Crestech Software](#)

Nov 2010 – Aug 2015

- Managed enterprise QA teams across high-scale applications, implementing risk-based testing frameworks that reduced critical production defects and defect leakage.

IT Consultant | [IYCWorld Soft Infrastructure Pvt. Ltd.](#)

Apr 2008 – May 2010

- Began career in hands-on technical delivery — systems implementation, application deployments, and supporting scripting/customizations — driving smooth end-user adoption and a marked improvement in rollout efficiency.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- PMP — Project Management Institute (PMI) (2026, Pursuing)
- AI Accelerator Programme — Be10X (2026, Pursuing)
- AI for Everyone — DeepLearning.AI / Coursera (2026)
- Product Management & Career Acceleration Program (PMCAP) — GrowthSchool (2024)
- SAFe® Advanced Scrum Master (SASM) — Scaled Agile, Inc. (2019)
